DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

Ex parte prosecution is SUSPENDED FOR A PERIOD OF SIX [6] MONTHS from the mailing date of this letter.

This reissue application of US patent 5,819,034 contains original unamended patented claims that appear to be allowable. However, since no 35 USC 251 error exists, the application is suspended in accordance with MPEP 1451.

MPEP 1451

If the reissue application containing only original unamended claims becomes allowable first (and no "error" under 35 U.S.C. 251 exists), further action in that reissue application will be suspended to await examination in the divisional reissue application(s) containing the added claims. Multiple suspensions (usually six-month periods) may be necessary. The Office will not permit claims to issue in a reissue application which application does not correct any error in the original patent. Once a divisional reissue application containing the added claims is examined and becomes allowable, the examiner will issue a requirement under 37 CFR 1.177(c) for applicant to merge the claims of the suspended first reissue application with the allowable claims of the divisional reissue application into a single application, by placing all of the claims in one of the applications and expressly abandoning the other.
